

QUICK-STEP® OIL CARE

Parquet

Quick-Step Oil Care is a maintenance product for periodic treatment of oiled Quick-Step® wood floors.

Frequency of use: after 3 times cleaning your floor with Quick-Step® Clean (product for regular cleaning), clean it a 4th time with the Quick-Step® Clean, let it dry well, then use Quick-Step® Oil Care on the clean floor to revitalize it.

Instructions: make sure your Quick-Step® oiled wood floor is dry, clean and free from dust or stains. Dilute 2 to max. 4 caps of Oil Care in 5L water (use the cap on the bottle). Soak a non-fluffy mop (Quick-Step® Cleaning Mop) in this solution. Wring out well; make sure it is only slightly damp. Wipe the floor in the lengthways direction of the panels.

Tip: regularly rinse and wring out – avoid using excessive water.

Base	Polymers, resins, oils, waxes and emulsifiers
Hardening system	Physically drying
Dilution	Water
VOC	2%, very low on VOC
pH	8–9
Density	1,05 ± 0,05 kg/dm ³
Colour	Milky, transparent
